

# Cupcake Case Spring Flowers

1 Fold the cake cases as below.

2

Round off the corner using a pair of scissors.

Open them up to see your flower shape.

4

Use glue or sticky tape to stick the cases together. Find a button, gem or something else as a centre piece.

3

Cut out some leaf shapes.

5

Stick them to a lolly stick if you have one to complete the flower. Or, you can stick them to paper and make a pretty summer garden scene. We're looking forward to seeing your creations!
